

BEAN TO CUP MACHINES

Pulsante 200: Low to medium volume

The Pulsante 200 is the ideal coffee machine for anyone wanting to serve a perfect cup of coffee without needing the performance of a large machine.

It has ten individually programmable buttons, and you can heat or froth milk automatically, allowing you to prepare a latte macchiato at the touch of a button. It comes with a self-contained water tank, with the option of connection to the mains for an additional charge.

- ◆ The unit is designed to handle an average daily output of approx. 100 cups
- ◆ 8 drinks selections
- ◆ 2 bean hoppers each containing 250 g
- ◆ Automatic Cleaning programmes
- ◆ Fridge Unit holds up to 2 litres of milk

Pulsante 400: Medium to high volume

The moderately sized Pulsante 400 is an elite performer. There is almost nothing its sophisticated technology cannot handle. Its elegance is the delight of catering professionals, which is why the Pulsante 400 has so many admirers throughout the industry, in restaurants, bars, hotels, large canteens and the vending sector. In short, it's a coffee machine with character.

- ◆ Up to 300 drinks a days
- ◆ Up to 20 coffee selections
- ◆ 20 litre of Hot Water per hour
- ◆ Smart boiler technology – boosts steam and hot water capacity
- ◆ Automatic Cleaning programmes
- ◆ Fridge Unit holds up to 6 litres of milk
- ◆ Options: Self serve and auto steam

Equipment Pricing

To ensure that the equipment you buy can be operational from day one, we always sell our equipment with filters, cleaning kits, as well as including training in the price.

Warranty and Maintenance

The Pulsante range of bean to cup machines are supplied with 12 months parts and labour warranty. N.B breakdowns due to customer misuse, operator error or scale related are not covered.

We recommend that the machines have an annual service to ensure that the machine continues to operate at its best and continually serve high quality coffees.

Extended warranties are available.
